

TROPICAL CYCLONE BULLETIN NR. 6

Tropical Storm ENTENG (YAGI)

Issued at 2:00 AM, 02 September 2024

Valid for broadcast until the next bulletin at 5:00 AM today.

“ENTENG” MAINTAINS ITS STRENGTH WHILE MOVING NORTHWESTWARD OVER THE COASTAL WATERS OF VINZONS, CAMARINES NORTE

Location of Center (1:00 AM)

The center of Tropical Storm ENTENG was estimated based on all available data **over the coastal waters of Vinzons, Camarines Norte (14.5°N, 123.3°E)**

Intensity

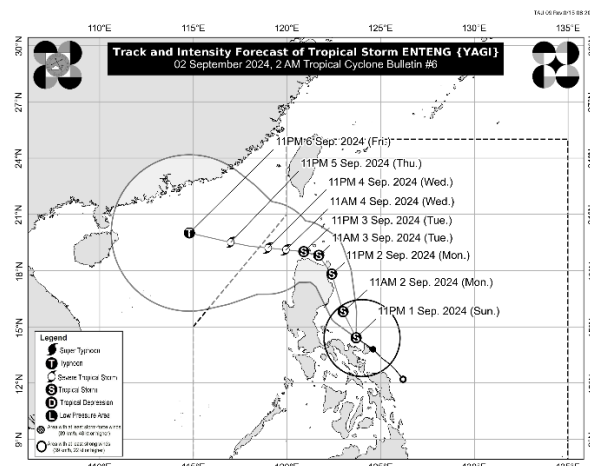

Maximum sustained winds of **65 km/h** near the center, gustiness of up to **80 km/h**, and central pressure of **998 hPa**

Present Movement

Northwestward at 30 km/h

Extent of Tropical Cyclone Winds

Strong to gale-force winds extend outwards up to **250 km** from the center

TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)

TROPICAL CYCLONE BULLETIN NR. 6

Tropical Storm ENTENG (YAGI)

Issued at 2:00 AM, 02 September 2024

Valid for broadcast until the next bulletin at 5:00 AM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Forecast accumulated rainfall: Today (2 September)

- **> 200 mm:** Camarines Norte, Camarines Sur, Albay, Polillo Island, and the southern portion of mainland Quezon
- **100-200 mm:** Aurora, the rest of Quezon, Catanduanes, Masbate, and Sorsogon
- **50-100 mm:** Isabela, Quirino, Bulacan, Metro Manila, the rest of CALABARZON, Marinduque, Romblon, and Northern Samar

Forecast accumulated rainfall: Tomorrow (3 September)

- **100-200 mm:** Isabela, Cagayan, Abra, Apayao, and Ilocos Norte
- **50-100 mm:** Aurora and the rest of Ilocos Region, the rest Cordillera Administrative Region, and mainland Cagayan Valley

Forecast accumulated rainfall: Wednesday (4 September)

- **100-200 mm:** Babuyan Islands, Apayao, Ilocos Norte, and Ilocos Sur
- **50-100 mm:** Batanes, mainland Cagayan, and the rest of Cordillera Administrative Region and Ilocos Region.

Forecast rainfall are generally higher in elevated or mountainous areas. Under these conditions, **flooding and rain-induced landslides are expected** especially in areas that are highly or very highly susceptible to these hazards as identified in official hazard maps and in localities that experienced considerable amounts of rainfall for the past several days.

Furthermore, the enhanced Southwest Monsoon will bring moderate to intense rainfall in other areas of Luzon and Visayas (especially along the western portions). For more information, refer to Weather Advisory No. 4 issued at 11:00 PM yesterday.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The highest possible Wind Signal that may be hoisted during the passage of ENTENG is Wind Signal No. 2 or 3.

The enhanced Southwest Monsoon will also bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Ilocos Sur, La Union, Pangasinan, Zambales, Bataan, Aurora, Bulacan, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, Visayas, and Caraga Region.
- **Tomorrow (3 September):** Zambales, Bataan, Aurora, Bulacan, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, and Visayas.
- **Wednesday (4 September):** Zambales, Bataan, Aurora, Bulacan, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, and Western Visayas.

TROPICAL CYCLONE BULLETIN NR. 6

Tropical Storm ENTENG (YAGI)

Issued at 2:00 AM, 02 September 2024

Valid for broadcast until the next bulletin at 5:00 AM today.

HAZARDS AFFECTING COASTAL WATERS

In the next 24 hours, ENTENG and the enhanced Southwest Monsoon will bring the following conditions over the coastal waters of the country:

- **Gale Warning is in effect** over Catanduanes, Camarines Norte, the eastern coast of Camarines Sur, the eastern coast of Albay, the eastern coast of Sorsogon, and the northern and eastern coasts of Northern Samar. **Sea travel is risky for small seacrafts, including all types of motorbancas.** For more information, refer to Gale Warning No. 1 issued at 5:00 PM today.
- **Moderate to rough seas** over the eastern seaboard of Central Luzon and Southern Luzon outside Gale Warning areas (1.5 to 3.5 m), the eastern seaboard of Eastern Samar, and the seaboard of Kalayaan Islands (1.5 to 3.0 m). **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**
- **Moderate seas** are expected over the southern seaboard of CALABARZON, the remaining seaboard of Bicol Region, Palawan, Eastern Visayas, the seaboard of Western Visayas, the northern and eastern seaboard of Caraga Region, and the eastern seaboard of Davao Oriental (1.5 to 2.5 m). **Slight to moderate seas** are possible for the eastern seaboard of mainland Northern Luzon, the remaining seaboard of MIMAROPA, Visayas, Caraga Region, the seaboard of Northern Mindanao, and the eastern seaboard of Davao Occidental (1.0 to 2.0 m). **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- ENTENG is forecast to move generally northwestward in the next 24 hours. ENTENG is forecast to be over the coastal waters of Isabela and Cagayan by tonight.
- From tonight to tomorrow morning (3 September), ENTENG will generally turn west northwestward. Possible landfall in the vicinity of mainland Northern Luzon or Babuyan Islands is likely. A period of deceleration from Tuesday to Wednesday (4 September) is expected while ENTENG is slowly intensifying over Luzon Strait. ENTENG will continue to move west northwestward while accelerating and is expected to exit the Philippine Area of Responsibility by Wednesday evening to Thursday early morning (5 September).
- **There may be a further westward shift in the track forecast due to the developing ridge of high pressure north of ENTENG,** which may increase rainfall amounts over mainland Luzon.
- ENTENG is forecast to maintain tropical storm category until Tuesday and will intensify into a severe tropical storm by Wednesday. It may also reach a peak category of typhoon by Thursday or Friday. Changes in the intensity forecast is still likely over the Philippine Sea due to favorable conditions.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM today.
